How Engineering & Technology are Shaping GS

Technological innovation is at the forefront of GS, and impacts how we operate and serve clients every day. Join us for a fireside chat with the COO of our Technology Division and a senior Yale alum in Investment Banking, who will speak about how technology is shaping our businesses in a diverse culture. Attendees will build connections with engineers in the Affinity Network for Black professionals, who sit across a variety of roles and divisions.

Dinner will be provided, casual dress is appropriate. No prior knowledge or experience in financial services is expected or required. This event is open to all interested undergraduate students at Yale; STEM students are highly encouraged to attend. Contact NSBE if you have additional questions.

October 9, 2019
6:00pm - 7:00pm
Yale University
LC 101

Make things possible.

9:00am - 10:00am
Yale University
The Blake Hotel

Engineering/STEM Coffee Chats
(Registration Required)
Professionals from Engineering roles at GS will be holding coffee chats with third year students interested in opportunities in our 2020 summer analyst class. Eligible students are encouraged to apply to participate, please register by 11:59pm on 10/6 to be considered.

October 23, 2019
2:30pm - 4:30pm
Yale University
Location To Be Determined

GS Careers in Engineering/STEM Roundtable
Join Yale alumni in engineering roles at GS for roundtable discussions to learn how you can apply your STEM degree to a career at GS. Representatives will share what drew them to bring their skills to Goldman, what a day-in-the-life of an Engineer at Goldman looks like, and anecdotes about the exciting innovation they are driving. Dinner will be provided.

October 23, 2019
5:30pm - 6:30pm
